PROFESSIONAL SUMMARY

DevOps Engineer with practical experience in AWS, Kubernetes, Docker, Terraform, Ansible, and CI/CD automation. Skilled in building cloud-native infrastructures, Infrastructure as Code (IaC), container orchestration, deployment automation, and monitoring solutions. Experienced with Linux, GitLab CI/CD, Jenkins, Prometheus, Grafana, and AWS CloudWatch. Strong focus on Kubernetes, cloud infrastructure, and automation.
German (B2)
English (fluent).

TECHNICAL SKILLS

Cloud & Infrastruktur

- AWS (EC2, EKS, S3, RDS, VPC, IAM)
- Kubernetes
- Docker
- Linux Administration (Ubuntu)
- Helm

Infrastructure as Code & Automation

- Terraform
- Ansible
- Bash Scripting
- YAML
- Infrastructure as Code (IaC)

CI/CD & DevOps Tools

- GitLab CI/CD
- Jenkins
- GitHub/GitHub Actions/Argo CD
- Deployment Automation
- Container Orchestration
- CI/CD Pipelines

Monitoring & Observability

- Prometheus
- Grafana
- AWS CloudWatch
- Monitoring & Alerting

Programmierung & Datenbanken

- Python
- SQL (MySQL, PostgreSQL)

EDUCATION

DevOps Engineer, *Panthéon SORBONNE (DataScientest / LIORA INT)*

- AWS Cloud
- Kubernetes
- Docker
- Terraform
- Linux Administration
- CI/CD
- Monitoring & Observability

Bachelor of Engineering in Industrial Production, *JNN College Of Engineering, India*

CERTIFICATION

- AWS Certified Solutions Architect - Associate (Prüfung geplant: September 2026)
- DevOps Engineer Training (DataScientest)
- Deutsch B2 (Anderwerk)
- Data Science with Python (SkillUP)

DEVOPS PROJEKTS

AWS EKS WordPress Platform, https://gitlab.com/datascientest-taramira/project_2025_app

- Automated infrastructure provisioning with Terraform, reducing manual configuration effort and improving deployment consistency
- Designed and deployed cloud-native applications on Kubernetes (AWS EKS) with Helm-based package management
- Developed CI/CD pipelines to streamline application delivery and deployment workflows
- Implemented monitoring and observability solutions using Prometheus and Grafana for infrastructure visibility and alerting

GitLab CI/CD Automation, <https://gitlab.com/tarakadambi/magento-gitlab>

- Designed and implemented CI/CD pipelines using GitLab CI/CD for automated build, test, and deployment workflows
- Streamlined development and release processes through workflow automation
- Managed Docker-based containerized deployments in Linux environments
- Improved deployment speed and consistency by automating CI/CD operations

Infrastructure Automation, <https://github.com/Tarakadambi/Ansibleexam>

- Designed reusable Ansible roles to standardize and automate infrastructure provisioning
- Automated deployment and configuration of Magento and MySQL environments
- Implemented infrastructure validation and testing using Molecule and Testinfra
- Increased deployment reliability and consistency through Infrastructure as Code and automation practices

- Docker & FastAPI Projekt**, <https://github.com/Tarakadambi/Docker>
- Designed and deployed Docker-based FastAPI applications in containerized environments
 - Automated API testing workflows to improve reliability and development speed
 - Established consistent and reproducible development and testing environments through containerization

- Kubernetes Monitoring & Observability**
- Implemented monitoring and observability solutions for Kubernetes environments using Prometheus and Grafana
 - Collected and visualized container and infrastructure metrics for performance monitoring
 - Configured alerting mechanisms to support proactive incident response
 - Enhanced system reliability through centralized monitoring and faster fault detection

WORK EXPERIENCE	
Indian Bank , <i>Operations Analyst</i> • Performed analysis of operational processes and data to identify optimization potential • Assisted in developing and maintaining SOP documentation to standardize internal workflows • Supported continuous improvement initiatives through structured problem-solving • Worked closely with cross-functional teams and stakeholders to enhance operational efficiency	2017 – 2018 Singapur
Prosper Coal and Energy Pte Ltd , <i>Administration / Operations</i> • Coordinated administrative processes and supported operational workflow execution • Contributed to efficient day-to-day operations through structured administrative support	2016 – 2017 Singapur
ICICI Bank / RiverVale Walk RC , <i>Customer Support & Operations</i> • Processed and resolved technical customer inquiries, ensuring timely and effective support • Managed support tickets using structured workflows and tracking systems • Strengthened communication and problem-solving skills in a customer-facing technical environment	2005 – 2011 Singapur

FURTHER TRAINING & CAREER TRANSITION	
Integration & Training 2018 – Present Munich, Germany • Living in Munich since 2018; completed formal integration program in Germany (2019–2022) and obtained German language proficiency (B2 level) • Completed intensive DevOps Engineering Bootcamp (2025) with focus on cloud infrastructure, automation, CI/CD pipelines, and container orchestration	2018 – Present München
