PROFIL

DevOps Engineer with hands-on experience in AWS, Kubernetes, Docker, Terraform, and CI/CD automation. Experienced in building containerized cloud infrastructures, Infrastructure as Code (IaC), and deployment and monitoring solutions. Hands-on experience with Kubernetes administration, Linux environments, Docker, GitLab CI/CD, Jenkins, Prometheus, Grafana, and AWS CloudWatch. Transitioned from Operations & Analytics into DevOps Engineering through intensive project-based training and practical cloud and automation projects. Focused on cloud infrastructure, Kubernetes, CI/CD automation, and Infrastructure as Code.

German – B2 (course completed)

English – Fluent

TECHNICAL SKILLS

Cloud & Infrastructure

- AWS (EC2, EKS, S3, VPC, IAM)
- Kubernetes
- Docker
- Helm

CI/CD & DevOps Tools

- GitLab CI/CD
- Jenkins
- GitHub Actions

Programming & Databases

- Python
- SQL (MySQL, PostgreSQL)

Infrastructure as Code & Automation

- Terraform
- Ansible
- Bash Scripting
- YAML

Monitoring & Observability

- Prometheus
- Grafana
- AWS CloudWatch
- Alerting & Metrics Collection

Operating Systems

Linux Administration (Ubuntu)

EDUCATION

DevOps Engineering Bootcamp, *DataScientest / LIORA INT*

Program certified by Université Paris 1 Panthéon-Sorbonne

- AWS Cloud | Kubernetes | Docker | Terraform | Linux Administration | CI/CD | Monitoring & Observability

Bachelor of Engineering in Industrial Production, *JNN College Of Engineering, India*

DEVOPS PROJECTS

AWS EKS WordPress Plattform, https://gitlab.com/datascientest-tarakamara/project_2025_app

- Technologies: AWS EKS, Terraform, Kubernetes, Helm, Docker, GitLab CI/CD, Prometheus, Grafana
- Built a scalable Kubernetes infrastructure on AWS EKS using Terraform
- Deployed WordPress and MySQL applications using Helm charts
- Built automated GitLab CI/CD pipelines for build, test, and Kubernetes deployment

- Containerized WordPress and MySQL applications using Docker
- Integrated Prometheus and Grafana for Kubernetes workload monitoring
- Automated AWS infrastructure provisioning using Terraform

GitLab CI/CD Automation, <https://gitlab.com/tara.kadambi/magento-gitlab>

- Technologies: GitLab CI/CD, Docker, Linux
- Developed automated CI/CD pipelines for build, test, and deployment processes
- Automated build, test, and release workflows
- Optimized build and deployment processes through CI/CD automation

Infrastructure Automation, <https://github.com/Tarakadambi/Ansibleexam>

- Technologies: Ansible, Magento, MySQL, Molecule, Testinfra
- Created reusable Ansible roles for automated infrastructure provisioning
- Automated Magento and MySQL environment setup
- Used Molecule and Testinfra for infrastructure validation
- Standardized infrastructure deployment with reusable Ansible roles

Docker & FastAPI Projekt, <https://github.com/Tarakadambi/Docker>

- Technologies: Docker, FastAPI, Python
- Built containerized FastAPI applications using Docker
- Created containerized FastAPI environments for development and testing

Monitoring & Observability

- Technologies: Prometheus, Grafana, Kubernetes
- Built monitoring dashboards for Kubernetes environments
- Monitored container and system metrics
- Configured monitoring and alerting solutions
- Implemented centralized monitoring and alerting for Kubernetes environments

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (in Vorbereitung)
- Deutsch B2 (Anderwerk)
- DevOps Engineer Training (DataScientest)
- Data Science mit Python (SkillUP)

PROFESSIONAL EXPERIENCE

Operations Analyst , <i>Indian Bank</i>	2017 – 2018 Singapur
• Process analysis and operational support • Collaborated with internal teams and stakeholders • Problem solving and process optimization	
Administration / Operations , <i>Prosper Coal and Energy Pte Ltd</i>	2016 – 2017 Singapur
• Administrative process coordination • Supported operational activities	
Customer Support & Operations , <i>ICICI Bank / RiverVale Walk RC</i>	2005 – 2011 Singapur
• Handled technical customer inquiries • Ticket management and support • Communication and problem-solving experience	

FURTHER TRAINING & CAREER TRANSITION

Integration & Training

- Living in Munich since 2018 with completed German integration courses (2019–2022) and German B2
- DevOps Engineer Bootcamp (2025)

2018 – Present
München
